### **BlueBrain Earns Respected Technology Industry Credential**

*CompTIA Managed Print Services Trustmark™ signifies commitment to industry best practices, high level of customer service*

**Krakow, Polska, FEB/04/2016**

BlueBrain announced today it has received as a first company from the polish market the CompTIA Managed Print Trustmark™, a respected industry credential that signifies its adherence to best practices for technology service delivery and customer interaction.

"Earning this credential identifies BlueBrain as a business that meets or exceeds the best business practices the IT industry has to offer" said Nancy Hammervik, senior vice president, industry relations, CompTIA.

The Trustmark was developed by [CompTIA](#), the non-profit association for the information technology industry, in collaboration with industry experts and leaders, to identify businesses that have made a commitment to the highest levels of integrity and sustained quality service. The Trustmark is designed specifically for technology businesses offering on-premise print services via a managed services business model.

"This certification confirms the competence and quality of our services. Thanks to the cooperation with CompTIA and IMPSGA we import into the Polish market the latest solutions and technologies, which combined with our customized solutions allows us to build competitive advantage and steadily develop the company" - Roman Roj vice president BlueBrain

To earn the CompTIA Managed Print Trustmark, BlueBrain was evaluated on the internal practices and procedures they use to run their business and the external activities and operations they engage in with customers and prospects.
